

Comp Air *12*

The Experience You've Been Watting For.....

Engine:

Manufacturer: Honeywell
 Model: TPE331-14GR
 Horsepower: 1,650 SHP @ sea level
 1,759 SHP Thermo

Propeller:

Manufacturer: Hartzell
 Blades: 5
 Type: Constant Speed, reversible
 Diameter: 108"

Dimensions:

Length: 41.5'
 Wingspan: 48'
 Cabin Width: 5.65'
 Cabin Length 21'
 Cabin Height 5.85'

Seating Capacity: (single pilot)

Standard Passenger Configuration: 8+1
 Executive Passenger Configuration: 6+1

Wing:

Wing Area: 300 sq. ft.
 Wing Loading: 38 lbs./sq. ft.
 Aspect Ratio: 6

Speeds:

Cruise: 310 ktas. @ 30,000 ft.
 Stall Speed: 73 kts.

Weights:

Empty Weight: 5,880 lbs.
 Gross Weight: 11,400 lbs.
 Useful Load: 5,000 lbs
 Baggage Capacity: 500 lbs

Fuel & Range:

Fuel Capacity: 600 gal.
 Fuel Consumption: 71 gph
 Maximum Range 2,535 nm

Rate of Climb:

Solo: 4,000 fpm
 Gross: 2,800 fpm

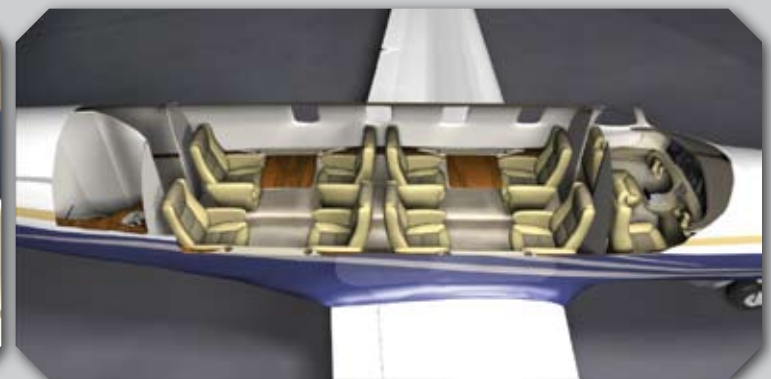

Limits:

G Loading: +6, -4
 Takeoff Distance: 900 ft. (gross @ seal level)
 Landing Roll: 1,100 ft. (with Beta)
 Cross Wind Landing: 17 kias.

With all the cramped, light jet and turboprops, either in or just entering the market, isn't it refreshing to know that there is a new, no compromise star about to enter the game, offering a stylish, 8+2 standup cabin, with an enclosed lav, that will cruise at 310 knots, and can fly from just about anywhere to anywhere in the United States, non-stop? Meet the new Comp Air 12, all carbon composite, single-engine, turboprop aircraft from Comp Air Aviation.

Keep in mind that most light jets and sporty propjets, although nice to look at, offer small cabins and short leg space. Not the limitations you need if you are talking owner/flown flexibility, Fortune 500 corporate missions or air taxi service. The Comp Air 12 can play all those positions without compromise, saving tons of fuel and maintenance dollars over any close-to-comparable aircraft.
